

## Wonka's Winning Ticket

*Charlie Bucket, the 5<sup>th</sup> lucky winner, won the last golden ticket on 31<sup>st</sup> January. He found Wonka's golden ticket in London, He says "I opened the wonka's Whipple scrumptious fudge mellow delight, and there it was the last golden ticket!" Surprisingly he found a lucky £1.00 on the floor and that lead him to the ticket. Within seconds he went to the nearest corner shop he could find.*

*Shockingly, the amazing first winner Augustus Gloop, a young child from Dusseldorf Germany, found the 1<sup>st</sup> golden ticket! His mother said "it was impossible for him not to get the ticket because he eats so much chocolate!" At first he did not know what he was eating, he thought but he could not guess. He pulled it out and there it was a golden ticket. Without warning the second golden and lucky winner was Veruca Salt, a spoilt little girl as some people say. Then it was a girl who did not want the prize she was in it to win it, Violet Beauregard she was a gum chewer, all she wanted was to win! Later in the day the Mike Teeveer a boy who has got the golden ticket but is not bothered about it. He love playing games*

*and also does not want to go to the factory!*

*Charlie's Bucket is honoured to get the golden ticket and his family are very excited for him. He lives in a little wooden house with all hid grandparents. All he eats is cabbage soup everyday because he is so poor. When Charlie goes to the factory he is going to take Grandpa Joe. Firstly he was going to swap the ticket for 500 dollars for his lovely family. But Grandpa Joe convinced him not to.*

*Finally the 5 lucky winners have been announced on television. In a few days time the amazing gates will open to the super stars winners! Charlie Bucket, Veruca Salt, Augustus Gloop , Violet*

*Beauregard and Mike Teever . According to my experience Wonka's factory will be reopening in a few days time....*
